

Jia Ping, research librarian;

In 1987, she graduated from the Department of Geography, Beijing Normal University.

In 2004, she graduated from graduate class of Library Science, School of Management, Chinese Academy of Science .

In 2001, she went to Seton Hall University, USA as visiting scholar.

She is currently the Chief Alliance Officer and Research Librarian of the User Service and Knowledge Dissemination Center , National Science Library , Chinese Academy of Sciences, the Secretary-General of the Council of the Documentation and Information Branch of the National Academy of Sciences, and the Deputy Director of the Regional Information Service Committee of the Professional Library Branch of the Chinese Library Member of Degree Committee of Documentation and Information Center, member of Degree Committee of the National Science Library, Chinese Academy of Sciences, member of User Service Coordination Group, the National Science Library, Chinese Academy of Sciences.

She has been engaged in scientific and technological literature information service for a long time, and has carried out research on literature retrieval, literature guarantee service and regional information service. She is engaged in the construction of Document Guarantee Service in the whole China Academy of Science, and have achieved large-scale and standardized development. She participated in the China-German digital information service project and, as the Chinese leader of the "cross-domain information service sub-project", completed the construction of *China Direct*---a China-German cooperation project, and realized cross-domain information service cooperation. In recent years, She has organized documentary information services for regional economic construction and local science and technology development :striving topromote the construction of the Literature and Intelligence Branch of the National Academy of Sciences Alliance and the sharing and cooperation of documentation and information services; to organize scientific and technological information services for local governments, high-tech parks and enterprises; to provide information and intelligence services for enterprise innovation and regional development through the establishment of regional industrial information centers; and to initially form the service network and mode of regional information and information services; to organize the exploration of library information services for innovation and entrepreneurship activities, explore new contents and new models of library position services, and initially form patterns and characteristics.

She has accumulated abundant practical experience in services and carried out research and practice in the aspects of facing the whole value chain of scientific and technological innovation, expanding library service content, innovating service mode and establishing effective service mechanism according to the changing trend of information environment and user demand. She also undertook a number of research and construction projects at the national,academyl and center levels: to organize and guide graduate students' "library position service scanning" project; to undertake the "Construction of Regional Innovation and Industry Upgrading Service Networks " and "Construction of Double Creative Information Service Network and Mechanism to Support the Transformation of Scientific Research Achievements", and promote regional information service in combination with practice; As one of the project leaders of the "Construction of Document and Information Sharing Platform of Provincial Academy of Sciences" of the Chinese

Academy of Sciences, which promotes the construction of the service mode and mechanism of Document and Information Sharing of Provincial Academy of Sciences. She is responsible for the project "Research on the System and Framework of Analytical Method of Industrial Technology Information - Taking Non-grain Biomass as an Example", carrying out the research on analytical framework and methodology oriented to industrial technology; and responsible for the project of "Information Portal Construction and Service in the Key Areas of NSTL" in the two key areas of "Nanotechnology and "Renewable Energy"; she undertook the projects of "NSTL Supporting the National Strategic Information Service System Construction of the Silk Road Economic Belt" and "NSTL Supporting the National Strategic Information Service System Construction of the Yangtze River Economic Belt". In 2017, as the head of NSTL Supporting the National Three Strategic Information Service Construction Projects, she explored the literature information and information services oriented to the three major national strategies. In the service practice, she has accumulated rich theoretical basis and practical experience, and published nearly 30 papers.

1. Information Service Platform for Science and Technology Innovation and Entrepreneurship: New Information Service Practice in the NSLC, *Library Journal*, 2017;
2. The Innovation Practice and Exploration of Special Library Service for Research Institutions—Taking Alliance of National Science Library and Provincial Academy of Science as an Example, *Library Work and Study*, 2016(03);
3. Information service platform for science and technology innovation and entrepreneurship: New information service practice in the NSLC, *Chinese Journal of Library and Information Science*, 2015 Vol. 8 No. 3;
4. A new service model of document and information sharing among consortium members: The collaborative innovation practice of the NSLC and PASs, *Chinese Journal of Library and Information Science*, 2015 Vol. 8 No. 4;
5. Special library services for regional economic development (SRED)—Practice of the NSLC *Chinese Journal of Library and Information Science*, 2015 Vol. 8 No. 3;
6. Study and Recommendations on the Construction of Makerspaces in Libraries, *Library Journal*, 2015(5);
7. Research and Practice of Open Innovation Strategy in Libraries, *Library and Information Service*, 2014(6);
8. Document and Information Services Sharing Under the Framework of Cooperation Between Chinese Academy of Sciences and Provincial Academy of Sciences, *Library and Information Service*, 2013(18);
9. Development of Document Delivery Services in China, *Interlending & Document Supply* 2010, 38 (3) (*SCI Journal*)
